The year 2010 marked the 50th year in business for **DraftSeal®** as a manufacturer and supplier of weathersealing and door sill products for commercial and residential applications.

In 2013 we introduced our new DS1 Storm - Sill System to comply with the new building code that requires exterior door sill systems to be tested for air, water and structural. We will be introducing our new DSF1 Accordion Screen, which is integrated with our DS1 Storm - Sill System. Our manufacturing centre in Vancouver, B.C., Canada, produces a line of weatherstrip and sill products for the pre-hung door industry as well as a do-it-yourself line of residential weatherstripping for the consumer market.
