

Tomorrow's Innovative Solutions for Today's Doors & Windows

The DS Group Of Companies: Draftseal®, Kristrack®, Eclipse Architectural® & DSD Hardware

Since 1960, A.K. Draft Seal Ltd. has been committed to be a leader in the door and window industry. As part of our company's growth we developed The DS Group® as our brand image, to represent our unique divisions: DraftSeal®, KrisTrack®, Eclipse Architectural® & DSD Hardware. The DS Group® carries on A.K. Draft Seal's commitment to continue developing and manufacturing innovative solutions for the door and window industry.

The DS Group of Companies:

WEATHERSEALING SPECIALISTS SINCE 1960 - WEATHERSTRIPPING, THRESHOLDS, SWEEPS & ASTRAGALS

Draft Seal Co. was founded in 1960 by Anton Kamensek then incorporated in 1973 as A.K. Draft Seal Ltd. During the 1990's we became known by our trademark name DraftSeal®, the largest manufacturer of weatherstrip products in Western Canada. After his retirement in the early nineties, his son, Chris, who had been with the company since 1973, purchased DraftSeal® and started the Kristrack®, Eclipse® and DSD Hardware divisions. The year 2010 marked our 50th year in business as a manufacturer and supplier of weathersealing and door sill products for commercial and residential applications.

In 2013 we introduced our new DS1 Storm - Sill System to comply with the new building code that requires exterior door sill systems to be tested for air, water and structural. We will be introducing our new DSF1 Accordion Screen, which is integrated with our DS1 Storm - Sill System. Our manufacturing centre in Burnaby, B.C., Canada, produces a line of weatherstrip and sill products for the prehung door industry as well as a do-it-yourself line of residential weatherstripping for the consumer market.

INTERIOR TRACK AND HARDWARE FOR SLIDING, BIFOLD AND POCKET DOORS

KrisTrack Manufacturing Ltd., was formed in 1991 to compliment the DraftSeal® line of weathersealing and door sill products. KrisTrack® manufactures and supplies sliding and bifold door track with accompanying hardware and accessories. Applications include residential, commercial and industrial. Our manufacturing centre in Burnaby, B.C., Canada, also produces a line of specialty pocket door frames custom made in knock down, half knock down, and ready-made styles.

EXTERIOR FOLDING DOOR SYSTEMS & HARDWARE

In 2001, KrisTrack Manufacturing found an exciting new product that we definitely felt would enhance our existing product line. It was a new generation of hardware systems for exterior folding doors and windows from Australia. The response to this product was so positively overwhelming that barely after the first year, a third company, Eclipse Architectural®, was formed to market this innovative product. This hardware has been one of the most popular to hit the wood door and window industry in years. The system is double weather-sealed with a water return sill system designed and manufactured by Eclipse Architectural. Within the last year a PVC Folding Door System, Aluminum Folding Door System and S1 Insect Screen for large openings have been added to the Eclipse line of products.

MULTIPOINT DOOR LOCKS

In 2010 door hardware became a crucial part of our business so DSD Hardware was created to handle our line of Multi-point door locks with accompanying lever lock sets and accessories.
